FAMILY FOCUS: WORKSHOPS FOR PARENTS,
FOSTER PARENTS AND GUARDIANS

Supporting LGBTQ youth in our families and communities is a rewarding—and challenging experience. Being a good advocate for the young LGBTQ person in your life starts with knowledge. These workshops are designed to help adults identify and work with a variety of issues—coming out from both young person's and parents' perspectives, the latest information on sexual orientation and gender identity, safe schools, building positive faith communities, and advocating for the rights of LGBTQ youth. Whether your child's been out for weeks or years you'll find new ideas to help them thrive.

**Come with your questions,
experiences, problems, and feelings.
Share the journey with other parents
and experts on LGBTQ youth.**
