Foster Youth Services Coordinating Program

TURNING DREAMS INTO DEGREES

This course will help caregivers understand how to support their youth to make a smooth transition from high school to college.

Learn about the benefits of college and the different pathways available to better support youth in making a plan.

Caregivers will also learn about the key steps youth must take in the junior and senior year of high school, and the supports and resources that exist to help youth along the way.

There are two modules, the first of which will support caregivers with early college planning for youth in grades 6th-10th grade.

The second module will focus on supporting caregivers with ensuring a smooth transition from high school to college for youth in 11th and 12th grade.

Please see page 2 for courses and dates.

FALL 2021 WEBINAR DATES

The Spring schedule will be forthcoming. Lastly, the courses are for two distinct age groups. Please verify it is the correct course you are seeking prior to registration.

Certificate of completion will be provided following each module.
