

Join the Movement to #FosterStability

As CYC soars through our 30th year, the Policy Team has been busy all summer, with the legislative committee leading a full campaign to ensure young people in foster care receive the dignity of stability in every aspect of their lives:

- Stability in education & extracurricular activities.
- Stability in relationships & lifelong connections.
- Stability in a place to call home.
- Stability in health & wellness.

This first-ever full campaign beyond the bill is right in line with CYC's mission "to transform the foster care system through legislative, policy, and practice change."

How can you get involved?
